GENERAL NOTES

Note that these are the normal booked diagrams, which can be subject to alteration at any time for operational reasons. In particular, weekend workings are often amended for engineering work. Diagrams may also be altered to cater for large crowd events such as racing at Cheltenham, music and sporting events at Cardiff and the Glastonbury Festival. Headcodes beginning with 3 or 5 are empty coaching stock (ECS) workings which are only shown where they are greater than 6 miles.

KEY

BRI - Bristol Temple Meads	NTA - Newton Abbot	SWA - Swansea
CDF - Cardiff Central	NQY - Newquay	SWI - Swindon
CMN - Carmarthen	OO - London Old Oak Common Depot	TAU - Taunton

LA - Plymouth Laira Depot	PMD - Pembroke Dock	MX - Runs on Mondays Excepted
LE - Landore Depot	PNZ - Penzance	FO - Runs on Fridays Only
MIM - Moreton-in-Marsh	PZ - Penzance Depot	FX - Runs on Fridays Excepted
NBY - Newbury		

125 GROUP

Formed in 1994 with the aim of sharing news and information on the fleet, our objective is to preserve a production High Speed Train powered by the original Valenta engine, to this end we have acquired a large number of major components. We have grown to over 500 members and recently became a registered charity with industrial designer Sir Kenneth Grange our Hon President. 125 Group took the last surviving prototype power car 41001 on long term loan from the National Railway Museum in 2012 and under the 'Project Miller' banner, named in honour of the BR Chief Engineer behind the original HST, we have restored it from a static exhibit to full working order for use on Heritage Railways. Thanks to our benefactors, volunteers and the kind help of the railway industry, 41001 is now a regular performer at its home base Great Central Railway (Nottingham), running with our matching Mk3 coaches.

If you are interested in High Speed Trains then please join 125 Group. Members receive our quarterly magazine packed full of news, information and informed comment on the HST fleet plus behind the scenes in-depth news on our preservation activities.

If you find these diagrams useful then please help us achieve our aim of preserving a production High Speed Train by joining our regular donations scheme. New Hitachi units are being built and delivered NOW, which will soon result in HST withdrawals.

Donate from just £5 per month and you will receive free 125 Group membership (normally £17 per year).
