

FOR SALE / DISPOSAL

MARK III RFM CATERING CAR 10206:

Having reviewed its future operational needs and requirements, 125 Group has reluctantly identified the requirement to dispose of Loco-hauled Mark III catering vehicle no 10206. Having been a core part of the recreated prototype HST supporting 41001 operation, and subsequently used at Ruddington for operations up until the commencement of the COVID pandemic, 10206 is incompatible with the revised 125 Group HST fleet and is no longer needed for Ruddington operation.

The vehicle has been utilised extensively by the Group as a key catering and sales outlet and has had significant internal and external refurbishment undertaken.

Professionally Repainted into Pullman-style BR livery, 10206 is complete and contains an area of first class IC75 seating with seventeen public seats, a wheelchair space and a separate staff area with six first class seats. Beyond the seating area is a full kitchen and a servery area.

The kitchen is operational and contains cooker, grill, microwave, Stills Boiler, sinks and cooling trolleys whilst the servery area contains shelved space and roller shutters over a fixed bar facility.

The vehicle is ideal for meal preparation or bar/buffet use. Electrics and air conditioning are in functional order – although the vehicle has not been used in operation recently.

The vehicle can be viewed by appointment and is currently located at Ruddington, Nottingham.

10206 is to be sold “As and where lying” and it will be the Buyer’s responsibility to arrange and undertake road based removal in conjunction with the 125 Group and the Ruddington Site Management.

For further enquiries or to view the vehicle, please contact Alex Wood of 125 Group by emailing alex.wood@125group.org.uk

Interested parties will be invited to submit a sealed bid, which will specify all requirements for the successful purchase and removal of the vehicle. Acceptance of the highest – or any bid will be at the sole discretion of 125 Group to ensure compliance with the Group’s charitable status.
